Brief CV: Stephen Porter is Professor of Oral Medicine in the Division of Maxillofacial Diagnostic Medical and Surgical Sciences of the Eastman Dental Institute for Oral Health Care Sciences, UCL, University of London.

The main research interests of Professor Porter are the oral and dental implications of infection immunity, in particular the impact of human herpes virus 8 and HIV upon the mouth. His main clinical interests are the management of immunologically-mediated oral mucosal and salivary gland disease, particularly the use of novel immunosuppressive regimes. Professor Porter has published extensively in the past 20 years.
